

DESCRIPTION

HMC is currently seeking career mentors from various sectors who can share their industry expertise and experience with newcomers.

We're searching for the following:

Mentors who have industry knowledge, experience, and skill to share with newcomers in their profession.

- Good industry knowledge and business experience
- At least 3 to 4 years of professional experience in any industry in Canada
- Active links to professional networks in your field
- Desire to connect with people from other countries and cultures.

What we ask of you when you sign up as a mentor, we pair you with someone who has immigrated to the GTA and has experience and/or training in their industry, but who may not understand the Canadian context of their profession, workplace culture, or know how to translate their skill sets.

As a mentor, you may help your mentee by doing the following:

- Giving practical advice on how to navigate a job search in the GTA
- Helping them tailor their LinkedIn profile and CV for their specific industry in Canada and practice their interview skills
- Supporting them to grow their professional networks, connecting them to your contacts where appropriate
- Advising on recommended training and career development
- Helping them deal with questions and issues that may arise in the early stages of employment.

What you get in return

- valuable professional development opportunity with a chance to strengthen your coaching and leadership skills and gain an international perspective on your field
- Improved cross-cultural awareness
- Spot talent for potential recruitment – before your competition. But above all, the chance to give back to your professional community and take part in the mutual exchange of ideas and information

Volunteer commitment: 3- 4 hours over one month.
